PORTFOLIO: <https://dennis-magaki.is-a.dev>

I am Dennis Magaki, a software developer mainly proficient in front end web development, skilled in responsive UI and UX design. I am also proficient in various JavaScript frameworks like React and NextJs, Version control systems (Git, GitHub), designing web applications using tools like Figma, database management and many other skills. I am a result-oriented person who thrives in collaboration with agile teams, problem-solving skills, and attention to detail. This makes me able to consistently deliver high quality results.

EXPERIENCE

Front end Web Developer (Intern)

Dukatech Solutions | Nairobi

August 2025 – October 2025

My roles included:

1. Implementing responsive and mobile first design principles using various JavaScript frameworks like React and NextJs, TailwindCSS, HTML5 and CSS3.
2. Refactoring existing codebases for maintainability and readability.
3. Streamlining development processes through version control systems like Git.
4. Designing wireframes and mockups pre-implementation using tools like Figma.

I have also worked on various personal projects which have helped me learn and grow as a software developer.

Here are some of the websites I have designed as an intern in this organization:
